

# RE-CU-MA COMPLETELY CURED HER OF ALL FEMALE TROUBLES

NOW IS IN PERFECT HEALTH

Husband Regains Health After Taking Re-Cu-Ma for the "Flu"

"Re-Cu-Ma Medicine Co., Jacksonville, Fla. Gentlemen: Two years ago I was completely cured of female troubles, with aches and pains in the back and bad headaches, also what they said was chronic constipation. Three bottles of RE-CU-MA cured me and I have never had any sickness since. My husband was cured of the "flu" last year on two bottles. Please send me three bottles for the money enclosed, as I want it for my sister who has doctor for over a year, and I am confident that your wonderful medicine will cure her same as it did for myself and husband. Hoping to receive the medicine soon, I remain, Most respectfully, Mrs. Sue Swarts, Wolverine, Mich."

You can get RE-CU-MA at Glymph's Pharmacy or any drug store for \$1.20 plus war tax.

## Bankers Asked to Assist

Columbia, July 10.—A appeal to the bankers of the state to assist the South Carolina Division of the American Cotton Association in the campaign which it launches on July 15th for the construction of warehouses and securing of cotton graders in the various counties of the state is contained in a letter which has been sent to them signed by Gov. Cooper, J. Skottowe Wamamaker, president of the American Cotton Association; R. C. Hamer, president of the South Carolina Division of the American Cotton Association; B. Harris, Commissioner of Agriculture; J. C. Rivers, Warehouse Commissioner, and W. W. Long, director of the Extension Service of Clemson College.

"To maintain a profitable market for South Carolina's principal crop—cotton—is the most important problem now requiring the careful study and energetic efforts of the southern people," says the letter. "The main essentials in solving this problem are as follows:

"First, to secure sufficient warehouse space in the hands of farmers, or of interests friendly to them to satisfy our warehouse needs. The U. S. Department of Agriculture estimates the country damage to cotton as causing a loss of 60 million dollars annually to the growers. In addition to cotton not being stored in a bonded warehouse it cannot be used as collateral for loans. The non-warehousing of the crop in bonded warehouses is one of the causes of "distress cotton" which annually brings an enormous loss also to the South.

"Second, cotton growers must be urged and assisted to market the crop over a period of 12 months, instead of dumping 70 per cent of the crop on the market during the fall months as at present. If this be done the large loans now made to cotton mills carrying their cotton purchases for the year would probably split into many small loans to the producers who hold cotton. If cotton were marketed over a long period instead of a short one many of the speculative features of the cotton business that are frequently so disastrous to the grower would be removed. To put the marketing of cotton states on a sounder basis. In other words, every line of business now being conducted in the South is working for its own best interest in joining hands with those organizations now cooperating to bring about the much needed reforms mentioned in this letter. Urge your patrons to warehouse their cotton as soon as ginned and market it gradually.

"Third, the official grading of cotton while it is still in the hands of the producer, and the direct marketing of cotton in quantities from producer to spinner, must be brought about. These things are coming and it is only fair to the producer to aid him in every way possible to bring them about, especially since these changes would be reflected in greater prosperity of all the people. Grading and direct marketing have already been demonstrated in this state to the great satisfaction of every honest interest. It remains to extend this work until it covers the entire belt.

"If you are not already a member you are urged to join the South Carolina Branch of the American Cotton Association and lend your personal influence toward helping to put across this work. A blank form for your use in making application for membership is enclosed. In this connection South Carolina now has on a campaign to secure a larger percentage of bankers as members of the Association than any other state. Let us not fail to stand at the head of the list on this as we have stood in so many other lines."

## SOCIAL CENTER FOR AMERICANS

Buenos Aires, June 15.—The American Club here of nearly 300 members is trying to buy or lease some home in order to fulfill a long felt want for an American social center in the Argentine capital. There are a number of English clubs to which some Americans belong, but there is no place where Americans can get together and "talk freely" as one of the promoters put it.

The Board of Governors point out that if it is to be a real American club it must be "the best," which means a good deal in this city of fashionable clubs, among them a luxurious German club. The organization has a "nest egg" of \$20,000, to begin with. It is proposed to admit women to privileges and make the club a center of all American patriotic activities. The American Club at present holds a weekly luncheon at a hotel where the members listen to addresses by prominent visitors or Argentines.

Japanese fishermen are said to be seriously depleting the fish supply on the California coast by the use of giant nets having a capacity of forty tons of fish.

## FOUNTAINS OF LAVA PLAYING

Hilo, Island of Hawaii, T. H., July 10.—Immense fountains of molten lava have been playing recently in the glowing lake of fire of Kilawean volcano near here.

The liquid area of the lake has shrunk a little of late but still occupies a considerable portion of the pit which is about 1,200 by 1,400 feet in its two diameters.

The lava flows on Kau desert, about seven miles from the main crater, which began in December, 1919, are still active.

## WILL WEAR "CIVVIES" IN PARADE

Cleveland, O., July 9.—In contrast to the khaki which all were wearing two years ago, the 3,000 delegates to the second national convention of the American Legion here in September will march in civilian garb. All former service men here at the time of the convention will be asked to participate in the procession.

Delegates from all over the United States, Cuba, the Philippines, Hawaii, Mexico, Canada, England, France and Belgium, representing a membership of more than 1,500,000 veterans of the World War are expected.

## THREAT OF TROUBLE AT GEORGIA HEARING

Negro Said to Have Confessed to Carrying Oil to Butler Theater.

Butler, Ga., July 9.—Sam Fagan, a negro, who is said to have confessed to carrying oil to the new Grand theatre, destroyed by fire Saturday night, was carried to Columbus tonight to avert race trouble.

The negro was arrested at Reynolds Wednesday by the state fire marshal and carried to Macon for safe keeping. He was returned here today for preliminary trial but fear of trouble caused a postponement of the case.

Other arrests are expected. The theatre had been in operation only three days. The negro in his confession, according to the officers said that he was employed to carry oil to the new theatre at 11:30 o'clock last Saturday night. He says that he carried out instructions and went to his home. An hour later fire broke out and he returned to the scene, he says. There is another theatre here.

## PROHIBITIONISTS TO PUT OUT TICKET

Chicago, Ill., July 12.—The present prospect is that the Prohibition party will nominate a presidential ticket in its national convention at Lincoln, Neb., beginning July 21, says Virgil G. Hinshaw, chairman of the Prohibition National committee.

"Both the Republican and Democratic parties by omitting a plank endorsing the Eighteenth amendment have dismally failed in living up to the standards demanded by the American people in 45 states," said Mr. Hinshaw, in a formal statement. "We of the Prohibition party consider it incumbent upon us to maintain a party organization to give expression to the millions of dry voters in the country."

For the first time in the history of a prohibition national convention one of the sessions will be given over to a law enforcement mass meeting. Another new feature of the 1920 convention will be the discussion of world prohibition. "Woman's Hour" is the theme of a third session. Aaron Watkins of Germantown, O., as temporary chairman will make the keynote address. Mr. Watkins was the party's vice-presidential nominee in 1908 and 1912.

Clinton N. Howard of Rochester, N. Y., who presented the case for prohibition before the Republican national convention will speak of "The 18th Amendment—The Lost Plank." Clay Needham, of Los Angeles, Calif., will follow with an address, "Why Democracy Shied at It." W. G. Calderwood of Minneapolis, is to speak of "How the Committee of 48 Met the Call." Mr. Calderwood is National vice-chairman of the party.

Thursday morning July 22 is scheduled to bring election of the national prohibition committee and the report on platform and resolutions.

Thursday night is to be devoted to the "Prohibition Foundation," an incorporation for the extension of national and world prohibition work.

Adoption of platform and presidential nominations are scheduled for Friday morning, July 23.

## AFTER LIQUOR LAW VIOLATORS

Louisville, Ky., July 10.—Hard sledding is in prospect for liquor law violators who have covetous eyes on the 30,000,000 gallons of whiskey in Kentucky bonded warehouses.

Recent disclosures indicate that permits from prohibition directors of other states to take whiskey from Kentucky have sometimes been changed to make it appear that a greater quantity could be removed than was authorized.

Contemplated changes in the permit system, include the use of devices similar to those used on bank checks. Moreover, according to statements from the office of Elwood Hamilton, collector of internal revenues for Kentucky, permits should be kept continuously in the hands of government officials and not given directly to the applicant, as has been the custom.

## CHURCHES RETURNED TO CONGREGATIONS

Mexico City, June 24.—A number of churches in Guadalajara, taken over by the government in 1915 and withheld from the Catholic clergy since that time under the provisions of the constitution, have been returned to their congregations by order of President de la Huerta. According to El Heraldo de Mexico, the return of the Guadalajara churches is the first step in the president's program to turn back all churches throughout Mexico which have been closed by governmental order. The closed church issue has been a vibrant one for years in Guadalajara, a notably religious city.

Sixteen miles of pipes were required to convert the ocean liner Aquitania into an oil-burner.

## The Married Man

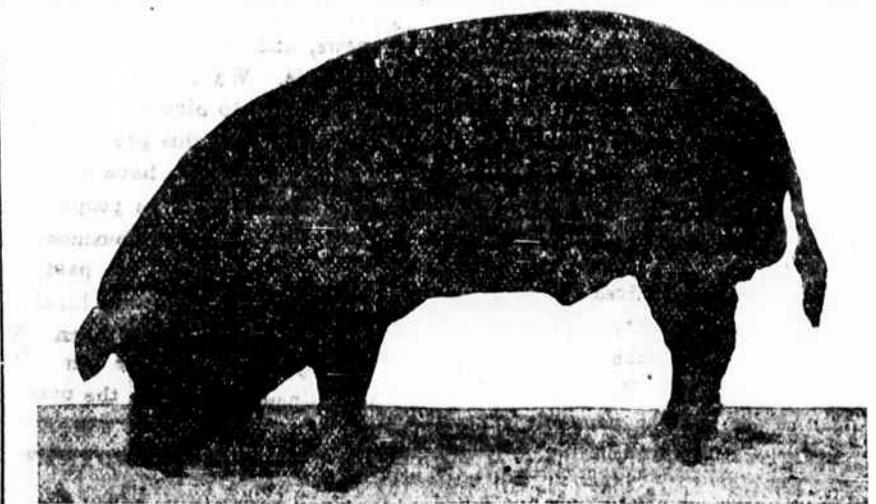

They make a good many jokes at the expense of the "poor married man," but really marriage is no joke to the man who is married.

It is a stern, sobering event to the average man when he takes unto himself a wife. It means two mouths to feed instead of one. Two people to be properly clothed, a home to furnish, additional duties and responsibilities. It means more economy, more careful adjustment of finances. An account at our bank is one of the greatest safeguards the newly married man can make. Save a little something every week, every month, every year for a rainy day.
